

Mandarin Orange Segments Packed in Water, Artificially Sweetened

July 29, 2016

DESCRIPTION

Mandarin Oranges packed in the nonnutritive sweetener Sucralose are prepared from sound and ripened fruit of the Satsuma variety that are peeled, cored, segmented, cleaned and washed properly prior to filling into bowls.

APPEARANCE

Bright orange that is typical of mandarin orange color. Color may vary from light to dark according to the time of pack relative to season (i.e., early, middle or late season), but the color within a given bowl should be uniform. Packing media should be free from sediment or cloudiness.
