FLOTTA

The Flotta brand dates back to the late 1940's and is recognized for its sweet flavor and excellent yield. Using hand selected varieties of California In-Season Fresh Tomatoes produces our unique sweet flavor. All Flotta brand canned

tomatoes are packed during the fresh harvest in California's sun-drenched Mediterranean-like climate between the months of July and September.

Pacific Coast Producers continues the tradition with Flotta brand items, a line of superior, tomato products intended for the most demanding restaurateur.
